INSURGENT LEADER IN EL PASO PRISON

A Warrant Issued For the Arrest of Madero, the Provisional President

ACCUSED OF VIOLATING AMERICAN NEUTRALITY LAWS

Officers Are Looking For the Directing Head of the Trouble. The Mexican Government Concentrating Large Force in Chihuahua With a View of Striking at the Backbone of the Insurrection. The Progress of the War in the West.

El Paso, Texas, Feb. 13.—Martin Casillas, the Mexican revolutionary leader, was held in \$1000 bail by United States Commissioner Oliver today in default of which he is spending his second night in jail. He was arrested on Sunday while returning to his command in Mexico after a visit to El Paso to ascertain what disposition to make of seventy prisoners. He declares that he committed no crime and will make no effort to give bond, "not even if you cut off my head," were his parting words.

Casillas, when he came to El Paso made the mistake of bringing his rifle and then trying to take it back again. He also had revolutionary dispatches when he returned.

Pasqual Orozco the insurgent commander who gave Juarez a big scare last week is now at Samalayuta, thirty miles south of Juarez, waiting to give battle to Navarro and his federal reinforcements, according to his own announcement to men who returned today. Navarro is supposed to be thirty miles south coming up the railroad, although reports at Juarez are that he has gone west in an attempt to get around Orozco without a fight.

Three more wounded insurgents have been brought to the temporary hospital in El Paso, indicating further fighting east of Juarez, along the river. There are now thirteen wounded insurgents in El Paso.

Customs Collector Sharpe and other El Pasoans have made a formal application to the American Red Cross for the appointment of Drs. J. W. Ward and J. W. Emanuel as Red Cross physicians, with the approval of the state department, to accompany the insurgents army and relieve the wounded. If appointed in this manner they will be given protection from Mexican federal bullets.

Juarez is still strongly guarded. Gambling games have not been resumed, but the most exciting thing in town these days is when the cavalrymen take their horses to water.

WARRANT FOR "PRESIDENT" MADERO.

El Paso, Texas, Feb. 13.—The self styled provisional president of Mexico, Francisco I. Madero, is in El Paso to night, unless arrested out within the last twenty-four hours. So confident are the United States officials that the directing head of the Mexican revolution is still here that they had a warrant issued this afternoon for his arrest.

The warrant was issued as a result of the capture of papers on Martin Casillas, the revolutionary leader, as he was returning to Mexico on Sunday from a visit to El Paso. The papers were in the handwriting of Madero and were signed by him. All were dated February 12, El Paso.

The warrant charges that Madero planned an armed revolutionary expedition against a friendly nation and caused arms and ammunition to be sent into Mexico from the United States, in violation of law.

Last week it was asserted that Madero was in hiding at El Paso, waiting a chance to cross into Mexico. This is denied by the insurgent junta. It became known tonight that a warrant had also been issued for the arrest of Abraham Gonzalez, provisional insurgent governor of Chihuahua, who, however, has already left El Paso and is now at Samalayuta, a short distance from Juarez. Gonzalez has been directing the El Paso junta.

A CRUSHING MOVEMENT.

The Government Preparing to End the Farce.

Douglas, Ariz., Feb. 13.—With every resource bent to the task the Diaz government is now intent on crushing the rebels in Chihuahua, the hotbed of revolutionary sentiment. According to reliable sources the federal forces now in Chihuahua on their way thither number more than 12,000 men. Against these Orozco, Blanco and other insurrectionist leaders will have to contend with tiny armies.

From now on decisive warfare will be waged around the city of Chihuahua. Large bands of rebels are concentrated in the vicinity apparently with the object of recapturing it in the event Orozco can defeat Navarro before overwhelming reinforcements arrive. The first struggle is expected tomorrow at Santa Isabel, near Chihuahua.

Gendarmes and one regiment of

THE ARNOLD SEARCH.

Indications that the Missing Girl's Family Have Not Given Up.

New York, Feb. 13.—Notwithstanding a personal advertisement in a New York newspaper, apparently by George S. Griscom, Jr., that he hoped to see Dorothy Arnold on Tuesday, John W. Arnold, her brother, said tonight that he had no idea that the suitor's hope would be realized. "Dorothy is as much lost as ever," he said. A fact that strengthened the belief that the Arnolds are still conducting a search for the girl, was the hurried return of one of their counsel, John S. Keith, from Newtown, Pa., today. It is believed that he had come to handle some new important phase of the case, but Arnold did not desire to make public the nature of his efforts.

CONDUCTOR SHOT.

Excited Bandit Tried to Hold Up Los Angeles Car.

Los Angeles, Calif., Feb. 13.—A masked man leaped on a Seventh street car tonight near the end of the line on Rampart street and shot Conductor G. G. Johnson.

He began firing immediately after boarding the car, and when Johnson fell wounded he leaped off again without attempting to rob. Johnson was hit in the left kidney, the bullet emerging from the right side.

ELOQUENT DEFENDER OF SENATOR LORIMER

BAILEY STIRS THE SENATE TO APPLAUSE.

Forgery, He Says, Resorted to Secure Evidence.

Washington, D. C., Feb. 13.—The defense of Senator Lorimer was offered by Senator Bailey today in a speech so powerful that it was applauded by what was perhaps the largest attendance of members and spectators on the floor and in the galleries of the senate chamber during the present session of congress. For three hours the Texan spoke and then announced that he would continue his speech tomorrow.

His plea that the senator from Illinois be permitted to retain his seat was of an elaborate nature and was delivered with such force and fervor that it placed Mr. Bailey in the chief place among the defenders of Lorimer.

Mr. Bailey introduced many striking features, not the least startling, an assertion that forgery had been resorted to in making the case against Lorimer. This he asserted had been in connection with efforts to show that Holshaw of the Illinois legislature had been bribed to vote for Lorimer.

Mr. Bailey boldly charged that the war on Lorimer had been unrelenting and personal. He said the effort had not been so much to convict wrong doers as to destroy Lorimer. In connection with his presentation of the law features, Bailey gave what he said was the practice of the senate in vacating seats, holding that a senator was responsible for acts of corruption in his behalf when he had not been cognizant of them.

Mr. Bailey said that it required the invitation of enough votes to rob him of his majority in the case of his lack of acquaintance with the facts. Many members of the house stood against the walls while the address was in process of delivery, and Lorimer himself was in his seat.

NICARAGUAN EXPLOSION MAY HAVE BEEN CRIMINAL

Wholesale Destruction of Ammunition at Managua.

Managua, Nicaragua, Feb. 13.—In some way at present unknown, an explosion occurred this morning in the ammunition barracks not far from the palace of the president. This was followed by a series of explosions which killed three sentinels.

The structure in which the supplies were housed caught fire and for several hours blazed furiously, further explosions following in rapid succession. It is estimated that 7,000 rifles and 10,000,000 cartridges were destroyed. All the artillery, many rifles and a large amount of ammunition were saved.

The troops worked energetically removing the supplies from the buildings adjoining the ammunition barracks, and when, later, the fire had burned itself out a search disclosed the bodies of three sentinels who were probably killed by the explosions.

Numerous rumors are current respecting the cause of the explosion and in several quarters there is suspicion that it may have resulted from criminal intent.

President Estrada said this evening: "I do not think the explosion was the result of a plot, but we are investigating."

Several leading men have been imprisoned. They include Dr. Rodolfo Espinosa, former minister of foreign affairs, his two brothers, Amelio and General Adan Espinosa, Felix Pedro Zelaya, former minister of finance, Hildebrando Castillo, Luciano Gomez and General Hernandez Rivas.

TEST VOTE ON TREATY

The Passage of the McCall Bill is Certain

REPUBLICANS ARE DIVIDED

A Majority of the House Insurgents Against the Measure. The Democrats Are Almost Solidly in Favor of the Agreement.

Washington, Feb. 13.—The McCall bill carrying into effect the Canadian reciprocity agreement, reached the floor of the house today and probably will be passed before adjournment tomorrow. A test vote came soon after the house was called to order. Mr. McCall moved immediately to consider the bill. This was objected to on the ground that it was District of Columbia day and that on the calendar more important matters of legislation were pending.

When the voting was begun it became apparent that lines were being tightly drawn between those favoring and those objecting to the agreement. As finally corrected the vote to take up the bill was 197 to 120. The bill will be passed by an even greater majority probably one exists among the republicans voted against immediate consideration. This number will show a decided diminution in the final roll call.

Sixty-three republicans voted for immediate consideration. The democratic vote was divided, 164 favor and 19 against. The democratic leaders say that there will be but six or seven votes against the passage of the bill from their side.

No time for a vote was set today but tomorrow Mr. McCall will endeavor to secure an agreement to end the general debate at 5 o'clock and then will begin the reading of the bill for amendment, the house to remain in session until the measure is passed.

The test vote and the general debate today clearly demonstrated the serious split that exists among the republicans of the house on reciprocity. It now appears that a majority of the republicans will vote against the measure, although the president is likely to get more support from that side than was at first anticipated.

The "regulars" the insurgents are also torn wide open and a majority of them will vote against the measure. Some of the republicans who spoke today said they saw in the reciprocity agreement the beginning of the end of protection.

SCHOONER OSHKOSH SPORT OF THE WAVES

Only One Saved When She Turned Turtle.

Astoria, Ore., Feb. 13.—The gasoline schooner Oshkosh turned turtle about noon today two miles south of the Columbia river jetty. Of her crew of seven men, only George May, an engineer, was saved. Those drowned are Captain Thomas Latham, master; Gils Ramsager, Al Davis, Charles Larson and Gus Chibberg.

The Oshkosh sailed from Tillamook Saturday for Umpqua, without a cargo, which fact probably contributed to her destruction. On Saturday evening she ran into a terrific gale and after battling against it all night, she was swept by a big sea that smashed the lifeboat, wrecked the galley stove, swept the water casks overboard and carried away some rigging.

The schooner was in a crippled condition when she was discovered.

MOVING WANTS

Looking toward the approaching spring many a household has planned for moving, buying or renting a new house or apartment. Hundreds of homes are planning important changes to be brought about next moving time. It's a good plan for property owners to be represented in the Want Columns with their houses, apartments and business locations as well, property listed so that prospective buyers or tenants may have ample opportunity to investigate in preparation for the moving time that will come round before long.

Want Ads are always of intense interest to tenants and owners—they are the best means of introduction.

dition, practically helpless, and drifted rapidly to the north before the gale. For twenty-four hours she was tossed by a heavy sea and the wind which was blowing fully eighty miles an hour, but was making fairly good seaway when suddenly she was plucked up by a huge wave and capsized. All the men on deck went overboard and were drowned.

Engineer May was in the engine room and could not get out, until driven by the wind and seas, the schooner went ashore late today. Word was immediately sent to this city and a tug was dispatched to the scene. The Point Adams life saving crew is patrolling the beach in search of bodies.

N. E. A. CONVENTION.

It Will Be Held at San Francisco After All.

San Francisco, Cal., Feb. 13.—After all preparations to hold the coming convention of the National Educational association had been called off on account of the determination of the Santa Fe to validate tickets at Los Angeles, that company removed the obstacle tonight by announcing that tickets would be validated at San Francisco only.

The educational association notified the San Francisco committee that if tickets were validated at more than one point, collection of the membership fee of \$2 for each ticket would be impossible and the association would forfeit the revenue.

JAMES T. WILLIAMS JR.'S CAMPAIGN FOR STATEHOOD

SUGGESTS COUNTY LEAGUES TO RAISE MONEY.

Faith That Recall Will Be Knocked Out After Admission.

Globe, Ariz., Feb. 13.—(Special.)—Upon his return to the territory from a trip to the coast, James T. Williams, Jr., editor of the Silver Belt and Tucson Citizen, in a signed editorial which will appear tomorrow in both papers under the caption "On to Washington" commends the proposal to continue the fight for statehood at the national capital. Although reiterating his opposition to the recall of the judges, the belief is expressed that the people will soon eliminate this from the constitution if Arizona is admitted to statehood. He suggests that a statehood league from each county raise a popular subscription to defray the expenses of a trip to Washington.

The Silver Belt and the Citizen will both offer to contribute and he suggests that all Arizona newspapers start subscription lists immediately.

A CALL FOR SHIPS.

Sacramento Legislature Wants the Pacific Made Safe.

Sacramento, Feb. 13.—The legislature of California has called for more warships on the Pacific coast. By the terms of the resolution adopted today, the state's delegation in congress is instructed to use all honorable means "to effect the immediate assignment to the waters of the Pacific of ships of war in such numbers and such power as shall place the nation on an equal footing on its western coast with all the nations which maintain ships of war in Pacific waters."

The resolution had passed the assembly previously. As introduced by Assemblyman Wilson it asked for ships "sufficient to repel invasions," but this clause was stricken out in committee.

WEATHER TODAY.

Washington, Feb. 13.—Forecast for Arizona: Fair.

AN OBSTINATE YOUTH MAY LOSE A FORTUNE

He Married Without Obtaining His Aunt's Consent.

Macon, Ga., Feb. 13.—The executors of the estate of H. J. Lamar are defending the suit of Lamar Washington for an eighth interest in \$500,000 on the ground that when young Washington wedded Lucile Osborne in New York several years ago, he did not obtain consent as was stipulated in the Lamar will.

Lamar Washington when a youth was adopted by his uncle, H. J. Lamar. In consideration of the lad's "transfer" his uncle paid Lamar's father, Colonel W. H. Washington of Nashville, \$100,000.

When his uncle died his will provided that young Lamar Washington was to receive an eighth of the estate providing he obtained his aunt's consent to any marriage engagement he might make.

The executors of the estate refused to turn over any part of the property to Washington, contending that he had married contrary to his aunt's wishes.

EMBEZZLER SURRENDERS.

A New Yorker Gets Tired of Dodging Detectives.

Colfax, Wash., Feb. 13.—A man giving the name of Horatio St. Joseph surrendered to the sheriff today. According to the sheriff St. Joseph's name is Horatio Moses who is sought by the authorities of New York to answer to charges of embezzlement aggregating \$3,500. He said he was tired of dodging detectives.

VACATION TRIP WORKERS SUCCEED FROM THE START

More Than Dozen Begin Earning Tours Offered By The Morning Republican

FIND FRIENDS WAITING TO GIVE THEM SUBSCRIPTIONS

One Young Woman Reported Trip One-Third Earned on First Day Out. Others Flushed With Results of First Few Hours See Victory Easily Attained. Neighboring Towns Soon to be Included. All Express Surprise at Liberality of Offer of Arizona Republican.

Eager to be among the first to earn summer vacation trips to the beach towns or elsewhere, in accordance with the proposition now being made by The Republican, over a dozen young women and young men started out yesterday morning securing the number of subscriptions necessary to insure one of these superb trips. From the first, it was apparent to those who had determined to make the effort that The Republican was not expecting the impossible of its workers. In fact surprise was expressed by everyone that the chief newspaper of Arizona was enabled to make such a liberal offer.

The absence of any contest feature and the evident fact that success in no manner depended upon the popularity of the individual, imbued each of the workers with a spirit of independence from the start. They realized that a certain goal had been set for them to attain and there was no doubt expressed by any one that it would be an easy matter to realize their ambition.

No newspaper in the Southwest has ever before been enabled to offer such a proposition to workers. Heretofore it has been the practice to engage a number of young women and young men in a contest in which a few won the trips and many were disappointed. When the vacation trips proposition of The Republican is withdrawn it will be found that every person who has worked under the terms of this offer will be fully rewarded for every effort made and for every subscriber secured.

It would be a wonderfully easy matter for Vacation Trip workers to earn either a long or short trip even if The Republican were not offering extra inducements to subscribers at this time. Since the present management assumed charge of The Republican no effort has been spared to maintain the enviable position in the forefront of the newspapers of Arizona, with the result that there has been a steady advance both in the news value of the paper, and a healthy, unsolicited growth of subscriptions as well.

In anticipation of the Vacation Trips proposition The Republican has decided to offer for a brief period, a bargain of extraordinary value to subscribers paying in advance. The management of The Republican and the management of Hampton's Magazine have made an arrangement whereby for the extraordinary bargain price of Seven Dollars The Republican and Hampton's Magazine will be sent for one full year.

The regular price of the two publications remains unchanged—\$9 for The Republican and \$1.50 for Hampton's. But during this bargain period \$7.00 pays for both—\$10.50 for \$7. The \$7.00 must be paid in advance.

Hampton's has been the sensation of the magazine world for the past year. Its circulation growth has astonished all rivals. It has achieved an enormous circulation, which is still growing as rapidly as ever. There is a reason, of course. Hampton's has taken the popular fancy as no other magazine has done. Without regard to expense, it has secured the cream of the literary world. The best fiction, the best special articles, the most incisive political and economic articles, appear in Hampton's. Peary's story of the discovery of the North Pole appeared in Hampton's—the magazine paid Peary \$50,000 for it. Dr. Cook's "Confession" is now appearing in Hampton's.

And this is the proposition Vacation Trip workers are enabled to take advantage of in securing the few subscriptions necessary to earn a summer's outing. One of the young women who started out yesterday morning reported before evening that she had secured one-third of the total number required to earn a trip to the beach towns. She was flushed with her success of the first day and expressed herself as confident that before the end of the week she would have accomplished her task.

During the day a number of subscriptions were taken across the counter in the business office of The Republican which were credited to the Vacation Trip workers by their friends. In a few days the names and approximate standing of the various Vacation Trips workers will be announced and in this manner these workers will undoubtedly receive credits from friends who might otherwise be unfamiliar with the fact that they were striving for one of the trips.

Before the week is over The Republican will have forces of Vacation Trip workers engaged in securing subscriptions in the nearby towns, several having already signified their intention of undertaking the work. Tempe, Mesa, Florence, Kelvin, Ray, Buckeye, Glendale, Wickenburg, Prescott, and even as far away as Flagstaff are expected to be represented actively.

From every side comes the word that the proposition of The Republican is the most extraordinary and unparalleled in the history of any newspaper in the Southwest. Any clerk, stenographer, school boy or girl, in fact any person possessing ordinary qualifications can start earning a trip, with the assurance that success will be attained with surprisingly little effort.

The main thing at this time is to come to the office of The Republican and talk it over with James G. Simpson, Vacation Trips manager, secure the necessary blanks and start working. You will find your friends waiting to subscribe under the terms of the great bargain offer. It will cost nothing to investigate the plan and once you have learned how easy it is to secure one of the trips you will be eager to begin. Don't delay. Look into the matter today.

SEATTLE GRAFT TO BE UNCOVERED

Grand Jury to Look Into Operations of Vice Syndicate.

Seattle, Wash., Feb. 13.—A grand jury will be called to investigate the administration of the police department under Chief Wapenstaen. Detective Burns, after a survey of the vice district a few months ago, estimated the annual rake-off at \$200,000. That is lower than other estimates. Prosecutor Murphy will ask the court tomorrow to call a grand jury. I will be called on Friday. Burns and Murphy say they have overwhelming evidence.

As soon as it became known that Detective Burns and Prosecutor Attorney Murphy were ready to place evidence in the hands of the grand jury they were besieged by men who had been interested in the operations of the vice syndicate and who it is declared, expressed their willingness to tell the grand jury all they knew concerning its operations.

Detective Burns asserted tonight that he had all the evidence needed to make his case and was as confident of the outcome as though the men implicated in the alleged graft had signed confessions. No members of the syndicate will be permitted to leave the city.

ONE BULLET KILLS TWO.

Second Victim Innocent Bystander at a Suicide.

Denver, Feb. 13.—Arthur Knowles, a bartender, was fatally wounded tonight by a bullet which penetrated his head after having passed through the head of William McCrory, once a wealth saloonkeeper of this city.

McCrory entered the saloon of his brother, John McCrory, and turning his back to the bartender fired a bullet into his own head. The bullet entered the right temple, passed through and out at the back and entered the head of Knowles.

McCrory died on the way to a hospital and Knowles cannot live.

Come and Be Convinced

Great Reductions on Entire Stock of Diamonds, Watches, Jewelry, Silverware, Cut Glass, Hollow Ware and Flat Ware.

N. FRIEDMAN MANUFACTURING JEWELER

33 West Washington Street.
